

WRVAG Executive Board

Our Executive Board meetings are open to the public and we encourage those individuals who are interested in our vision to attend any of our meetings. Our website lists our current projects and we welcome new ideas.

Board members leave for any number of reasons and, as amazing as our Board of Directors are at directing this organization, **our Board is currently not sustainable.** We do not have enough Board members to provide for continuity and knowledge base, ensuring a smooth transition when Board members begin to leave.

So, if you are an artist/artisan or an individual who loves art — and you wouldn't be receiving this newsletter if you weren't — please consider joining our team. You do not need to be an officer of the Board, we have unlimited positions for Members at Large.

President's Message

Reflecting back over the past year, I was reminded, that at this very time last year, essentially there was no WRVAG: no Executive Board, no Bylaws, no newsletter, no website, no activity.

In contrast, this year we have a full exhibition schedule in our Warm Springs Gallery, featuring local and regional artists for the first time in many years. (see In the Gallery of this newsletter).

Further, we are now accepting requests for Featured Artists for our 2023 exhibition season. We are looking for painters, sculptors, artisans, photographers, or a combination of mediums/disciplines. Visit our website for more information.

In keeping with our goal of supporting a wider artistic vision within our community, we have partnered with the Dubois Chamber Music committee in supporting their vision of bringing classical music to our community.

If you are enjoying our reinvigorated programing, as well as the creative vision of our regional and local artists/artisans, please become a member or make a donation. Or better yet, volunteer and join us on this incredible journey!

In closing, this organization needs the support of our regional artists and artisans, as well as our non-artist patrons in order to grow and educate our community. Art, in all its disciplines, speaks to our soul...our humanity...and, in these trying times, it is needed more than ever.
